Editor's Note: In February 2003, the Employment Development Department began releasing official estimates of employment by industry using the new North American Industry Classification System (NAICS) rather than the Standard Industry Classification (SIC) system. As a result, some industry titles will be different than those published in past months. In addition, we have adjusted the employment estimates to include updates resulting from our annual benchmark of employment data. As a result, some of the industry titles and numbers may have undergone significant change. Please contact the Labor Market Consultant listed above if you have any questions.
